FOR BID, DMO, AND DOWNTOWN DIRECTORS & ECONOMIC DEVELOPMENT LEADERS

The Corridor Transformation Program

You've spent years and thousands of dollars trying to fix your corridor's empty storefronts.
Every director on your board has a theory about why your storefronts are failing.
The district still looks the same from the street.

THE PROBLEM

Sound Familiar?

- One dead storefront suppresses the revenue of the rest. It's a vacancy tax you never see on a bill.
- You keep spending on events and marketing, and foot traffic doesn't improve.
- Your board wants results and ribbon-cuttings. And you're the one standing in front of them with nothing but a vacancy rate that keeps climbing.
- **Here's why: You've been solving one storefront at a time. That's why nothing sticks. No one has ever measured your corridor as a system.**

THE SOLUTION

Your corridor's rating, and the three fixes that raise it.

Now you can measure it as one system: five critical areas, scored precisely, with the three fixes that will move your rating and bring measurable foot traffic, local pride, and economic momentum.

01	02	03	04	05
Legibility	Invitation	Brand Coherence	District Contribution	Viability

All before you spend a dollar building anything.

> *"Storefront Mastery's transformative work has revitalized storefronts and energized our community, creating vibrant spaces that reflect the pulse of our city."*
